

Any Other Business

**Common Grass:** The Clerk reported that following correspondence with James Bracey the Holkham Estates General Manager, Land and Property, regarding cutting the grass, it appears the reason why it had not been cut for two years was weather conditions and staff changes. The matter has now been rectified and the Clerk was assured the grass would be cut in late April 2017.

**Village Notice Board:** The Clerk also mentioned that the notice board was in a very bad state and needed replacing. On the lines of the type of noticeboard discussed at a previous meeting, one side with a lockable door the other side left open for general use, she had obtained a price but it was decided that before placing an order we needed to know exactly what type of wood would be used and its expected lifespan.

**Carpenters Arms:** Draft plans received with regard to the demolition of a lean-to extension and erection of a single storey extension were discussed in detail and agreed by all in attendance and the Clerk instructed to advise the Planning Department accordingly.

Next Meeting - Monday 13<sup>th</sup> February 2017 at 7.30pm in the Methodist Chapel.

There being no further business, the meeting closed at 8.10pm.
